# Island County Fire Protection District No. 5 Exit Conference April 8, 2013

#### **Meeting Agenda**

The purpose of our exit conference is to share the results of our independent audit and to provide a forum for open discussion. We are pleased to review our draft report and discuss other topics as listed below with you.

- Accountability audit report
- · Recommendations not included in our audit reports
- Status of prior audit recommendations
- Report publication
- · Your next scheduled audit
- Customer service survey

Preliminary audit results and recommendations were shared in detail with District management and personnel as they were developed during the audit. We would like to thank staff for their cooperation and timely response to our requests during the audit.

We take seriously our responsibility of serving citizens by promoting accountability, fiscal integrity and openness in state and local government. We believe it is critical to citizens and the mission of the District that we work together as partners in accountability to prevent problems and constructively resolve issues. As such, we encourage your comments and questions.

#### **Accountability Audit**

#### Report

Our draft accountability report summarizes the results of our risk-based audit work related to safeguarding of public resources and legal compliance. The report does not include any findings.

#### **Recommendations not included in the Audit Reports**

#### **Exit Items**

We have provided the following exit recommendation for management's consideration. It is not referenced in the audit report.

#### Safeguarding of assets

We reviewed the District's internal controls and inventory policies and procedures for safeguarding of assets. We found that although the District does have an informal process in place and a draft inventory policy and procedures manual, the manual has not been approved by the Board of Commissioners. Because of this, the last comprehensive inventory at the District was taken in 2008. In addition, we found the District uses four different report types and were not consistent with how items were identified in the reports. Without consistent inventory policies and procedures, the District increases its risk of misappropriation of assets.

We recommend the District improve their internal controls over how they monitor assets. Specifically, we recommend the District approve inventory policies and procedures, complete a comprehensive inventory at least every two years, and use a standard report to identify all inventory items in order to reduce the risk of misappropriation.

#### **Status of Prior Audit Recommendations**

| Prior Management Letter Items | Resolved | Unresolved |
|-------------------------------|----------|------------|
| Procurement                   | Х        |            |
| Prior Exit Items              | Resolved | Unresolved |
| Restitution                   | X        |            |
| Safeguarding of assets        |          | Х          |

#### **Concluding Comments**

#### Accountability for Public Resources
